Koniag Services, Inc. Awarded Financial Management and Services System Support (FMSSS) Contract by the Air Force Space Command (AFSPC)

Chantilly, VA (Aug 29, 2017) – Koniag Services Inc. (KSI), a wholly owned subsidiary of Koniag, Inc., has been awarded a contract to provide technical support to HQ Air Force Space Command (AFSPC) Financial Management (FM) Directorate to maintain, enhance, and manage system operations and business process reengineering activities to ensure financial management mission requirements are met.

As part of this contract KSI will provide information technology, system and network administrator support for Air Force Space Command, Air Force Space Command Comptroller units, United States Air Force Academy (USAFA) and their related Financial Management systems. KSI will provide testing, analysis, problem identification, resolution and acceptance testing of financial systems. System administration support including network operating system configuration and tuning, network management, software utilization, installation, and evaluation will also be provided under this contract.

Kelly Mire, President of KSI said “This project is critical in supporting the transformational improvements of the US AF Financial Management Directorate. KSI is proud to be leading professionals dedicated to ensuring the customers of these systems across the US Air Force are fully satisfied.”.
